

## NodeJS, Express JS – Server Side Grid using Handle bar template

Duration – 1weeks

Name	Id	Employee Salary	Age

Prev	1	2	3	4	Next
------	---	---	---	---	------

Create Server Side Grid with Pagination using Handlebar template.

Handlebar Template: <https://www.npmjs.com/package/hbs>

Use below rest api in Axios to fetch the data in express JS.

**Rest Api :** <http://dummy.restapiexample.com/api/v1/employees>

**Axios :** <https://www.npmjs.com/package/axios>

## Draggable widgets using Angular & React

Duration – 1 weeks

**Angular Draggable** – <https://github.com/valor-software/ng2-dragula#readme>

**React Draggable** - <https://www.npmjs.com/package/react-draggable>
